

40-Hour Hazardous Waste Operations and Emergency Response (HAZWOPER) Course Outline-Online (as per 29 CFR 1910.120)

Overview

Compliance Solutions offers the finest, most comprehensive online 40-Hour HAZWOPER training course in the industry! Compare our course to ANY of our competitors and you will find that dollar for dollar, pound for pound, we offer the best online training course around! We don't "resell" other companies HAZWOPER training, we set the standard that our competitors TRY to imitate:

The 40-Hour HAZWOPER Online allows students to proceed at their own pace to complete this intensive, interactive, on-line training program. Unlike traditional training seminars, the online 40-Hour can be completed anywhere an internet connection and computer are available. This certification course combines 32-hours of online training with 8-hours of OSHA required hands-on instruction and an online certification exam.

Who should take this course?

The Hazardous Waste Operations and Emergency Response Standard (HAZWOPER) applies to five distinct groups of employers and their employees. This includes any employees who are exposed or potentially exposed to hazardous substances-- including hazardous waste--and who are engaged in one of the following operations as specified by 1910.120(a)(1)(i-v) and 1926.65(a)(1)(i-v):

- Clean-up operations--required by a governmental body, whether federal, state, local, or other involving hazardous substances-- that are conducted at uncontrolled hazardous waste sites;
- Corrective actions involving clean-up operations at sites covered by the Resource Conservation and Recovery Act of 1976 (RCRA) as amended (42 U.S.C. 6901 et seq.);
- Voluntary clean-up operations at sites recognized by federal, state, local, or other governmental body as uncontrolled hazardous waste sites;
- Operations involving hazardous wastes that are conducted at treatment, storage, and disposal facilities regulated by Title 40 Code of Federal Regulations Parts 264 and 265 pursuant to RCRA, or by agencies under agreement with U.S. Environmental Protection Agency to implement RCRA regulations; and
- Emergency response operations for releases of, or substantial threats of release of, hazardous substances regardless of the location of the hazard.

Modules

- HAZWOPER Regulations
- Safety Principles
- Competent Person
- Electrical Safety
- Fall Protection
- Planning and Organization
- Hazard Communication
- Chemical Hazard ID Systems
- Health Hazards
- Toxicology
- Ionizing Radiation
- Medical Surveillance
- Respiratory Protection
- Personal Protective Equipment.
- Occupational Heat Exposure
- Meters and Instrumentation
- Hand and Power Tools
- Material Handling, Storage and Use
- Motor Vehicles and Mechanized Equipment
- Powered Industrial Vehicles
- Emergency Response Procedures
- Fire Protection Requirements
- Confined Spaces
- Excavations
- Handling Drums and Containers
- Sampling and Packaging
- Decontamination Procedures
- Site Controls

Learning Outcomes

The purpose of this course is to ensure awareness and promote safety among employees who may be exposed to chemical hazards in the work-site. The objective is to ensure that employees operate in the safest possible manner in situations where contact with potentially hazardous materials is likely.

40-Hour Hazardous Waste Operations and Emergency Response (HAZWOPER) Course Outline-Online (cont.) as per 29 CFR 1910.120

At the conclusion of the course, students will:

- Understand how hazardous materials are handled, identified, and human responses to exposure
- Learn the importance of the Health and Safety Plan (HSP)
- Incorporate knowledge of what to do in case of site emergencies
- Know appropriate safety methods and work practice controls
- Recognize signs and labels that are used to alert personnel of danger involving hazardous material
- Receive certification for HAZWOPER training under 29 CFR 1910.120

Hands-On Training and OSHA HAZWOPER Certification

While you may have heard different, in order to be compliant with OSHA training requirements, **all 40-Hour HAZWOPER students must have hands-on training** and an opportunity to don and doff equipment, respirators, SCBA's etc. While we include this important part of your training (at NO additional cost to you) our competitors don't even *offer* this integral part of the 40-Hour HAZWOPER training.

After completing the online portion of the course, students should call our office the Monday of the week they wish to participate in the scheduled 8 Hour Hands-On class. We will register you for this part of your HAZWOPER course and complete your OSHA HAZWOPER training. Once completed, you will be required to complete an online examination and you will be mailed a Certification (suitable for framing) and a 40-Hour HAZWOPER Wallet Card for verification at DOD and Hazmat sites that require this Certification.

Instructor Support

OSHA requires online training courses to provide interaction with an Instructor and the opportunity for students to ask questions and receive help. Our competitors answer this requirement by providing an email address and a response (usually) within 48-hours. We don't think this is what OSHA had in mind! This course provides 8-hours of hands-on training and the opportunity to ask questions IN PERSON with an experienced Instructor. We also provide a state of the art asynchronous communication system that allows students INSTANT contact with a QUALIFIED Instructor – most competitors have a tech-support person answer emails – plus a hotline monitored by QUALIFIED Instructors. Finally, we also offer email support to address questions that are not urgent.

Compliance Solutions STARTED in the HAZWOPER business in 1995 offering REAL Instructors at REAL seminars. We're not some "Johnny-Come-Lately" trying to "cash in" on the internet training craze. We understand the need new students have to ask questions and we take PRIDE in providing training that doesn't just "MEET" OSHA requirements, we EXCEED them! Come find out why we say "**Compliance Solutions puts the CLASS in online training**"!

Prerequisites

There are no prerequisites assigned to this course. However, it must be noted that OSHA requires an 8 hour hands on training in addition to the 32 hours of online course material.

Registration

Register online at www.csregs.com, or call 1-800-711-2706 Ext 1.

Discounts

For companies wishing to register multiple students, the following discounts are available:

- 10% discount for 5-10 licenses
- 15% discount for 11-20 licenses
- 25% discount for 21-50 licenses
- 45% discount for 51-100 licenses
- Call for preferred discounts for over 101 licenses!

To take advantage of the above discounts, **please contact us at 1-800-711-2706 Ext 1 BEFORE registering**. We will issue your company a series of licenses to be used during the registration process.
