

DOT Hazardous Materials Transportation Outline-Online
The Complete Certification Course per 49 CFR 172.704

Overview:

This six (6) hour course covers training requirements mandated under 49 CFR 172.704 which states that **any** person involved in offering hazardous materials for transportation **MUST** be properly trained. DOT requires that the certification be refreshed **every 3 years** (or when regulations "substantially" change if sooner) and employees may not perform materials functions (in layman's terms: "shipping hazardous materials") until training has been completed. The course guides the student through the hazmat transport process, including a step by step scenario of shipment preparation.

Who should take this course?

Anyone involved in selecting a package, marking a container, applying a label, preparing paperwork (e.g. Bills of Lading, Manifests etc.) packing a shipment or taking part in the shipment or handling of a hazardous material.

Learning Outcomes:

- Properly identify and classify hazardous materials for shipping.
- Correctly handle, package and mark a hazmat shipment according to regulations.
- Awareness of security threats relating to hazardous materials.

Topics:

- General Awareness
 - Federal Organizations
 - Regulations and Statistics
 - General Awareness Training
- Classification
 - Identification
 - Classes and Divisions
 - Proper Shipping Description
- Packaging
 - Selection
 - Packaging Codes
- Hazmat Handling
 - Materials Handling
